## Starrett

## Starrett

## Precision Steel Rules

Starrett rules are made from fine quality steel and produced to the highest precision standards, making them the most accurate and readable precision steel rules available. Through over 125 years of experience, we have developed the following versatile features, designs and styles:

## Our product line consists of:

- Full-flexible 1/64"-1/50" (0.4-0.5mm) thick
- Semi-flexible $1 / 50-1 / 40$ " ( $0.5-0.6 \mathrm{~mm}$ ) thick
- Spring-tempered 3/64" (1.2mm) thick
- Heavy spring-tempered $1 / 10^{\prime \prime}$ ( 2.5 mm ) thick
- Stainless steel $1 / 64$ " or $3 / 64$ " ( 0.4 or 1.2 mm ) thick rules
- Graduation styles are inch, millimeter, inch and millimeter, shrink, and special graduations
- All rules are photo-engraved and tempered for long life and flexibility

## Accuracy

- All of our precision steel rules are photo-engraved. We inspect to Starrett Master Standards, which are traceable to the National Institute of Standards and Technology
- Measuring Tip: When using a precision rule for very close accuracy, the eye can read better by measuring between two lines rather than from the end of the rule to a line

Rule with Aircraft Quick-Reading Graduations on lower edge

Rule with Quick-Reading Graduations on both edges

## Readability Features

- The numbering size and style is distinctive and more readable than ordinary rules
- Advanced, staggered graduations- When reading lines, it is much easier to count lines of differing lengths than those that resemble a comb. All Starrett graduations are staggered in a height pattern that makes reading easy. For reading very fine graduations such as 50 ths (.020") or 100ths (.010") of an inch, Starrett designed an improved pattern of lines called "Aircraft QuickReading Graduations" (see photo, above). The name stems from its extreme popularity in aircraft plants and other shops using decimals. This pattern is also used on some of our millimeter rules
- Quick-reading figures are furnished with finer graduations for easier counting. Most all inch graduations of $1 / 32$ " and finer have subdivisions numbered (see photo)
- All rules are available in Starrett no-glare satin chrome finish for easier reading and rust resistance
- There are still some old "D" style rules on the market. These have one square and one rounded end. All Starrett rules are ground square on both ends. This provides better efficiency through the ability to read from either end on all edges

## Inch Graduation Styles

1
First Edge: 10ths, 20ths, 50ths, 100ths

Second Edge: 12ths, 24ths, 48ths
Fourth Edge: 14ths, 28ths

Third Edge: 16ths, 32nds, 64ths

Third Edge: 64ths

* Suffix "R" designates Quick-Reading graduations

NOTE: All rules under 1 " in width have single row of inch figures. Rules 1 " and wider have double row of inch figures, and each edge represents the bottom edge reading left to right.

## Useful Variation Features of Our Standard Precision Rules

## End Graduations

End graduations are useful for measuring depths, widths of shoulders, recesses, grooves, etc. They are graduated in 32nds of an inch or millimeters on both ends of one side as shown at the right.

## Adjustable Steel Hook Rules

These improved Hook Rules feature an adjustable double hook that can be shortened or extended on either side in relation to any one of the four graduations on the rule. This allows accurate measurements from shallow or deep shoulders and also permits setting inside calipers to any of the graduations. Hooks are hardened and may be adjusted or removed by a slight turn of an eccentric stud.

## Steel Hook Rules with Reversible Hook

These convenient Hook Rules permit accurate measurements, even when the user cannot see if the rule is aligned with the measuring edge. This is especially useful for measuring from round corners, through hubs, for setting inside calipers, etc. The single hook is hardened and may be reversed or removed by a slight turn of an eccentric stud.

## Narrow Hook Rules with Reversible Hook

These useful Hook Rules are similar to the Hook Rules described above, but have a narrow blade [only $3 / 16^{\prime \prime}$ ( 4.8 mm ) wide] which permits measurements through holes as small as $7 / 32^{\prime \prime}(5.5 \mathrm{~mm})$ in diameter. Hooks are hardened and may be reversed or removed by a partial turn of the eccentric stud.

## Steel Rule with Tapered End

This $6^{\prime \prime}$ rule, our C310T-6, is a favorite with all mechanics because the tapered end permits measuring insides of small holes, narrow slots, grooves, recesses, etc. The rule has a taper from $1 / 2^{\prime \prime}$ width at the 2 " graduation to $1 / 8$ " width at the end. Accurate, distinctive, photo-engraved graduations in 32nds are on one side and 64ths on the reverse side, with graduations always in a normal, easy-to-read position. Made of tempered, full-flexible steel with satin chrome finish.

## Steel Rule with Pocket Clip

This handy 6 " rule is designed for frequent use. It is made of tempered, full-flexible steel and has accurate, photo-engraved graduations in 32nds on one edge and 64ths on the opposite edge, with satin chrome finish. C310K-6.

## Steel Rules with Inch Graduations

## 1-144"

All rules furnished with Starrett satin chrome finish, except where noted. Additional sizes and variations available on special order.

## Rules include:

- Full-Flexible
- Semi-Flexible
- Spring-Tempered
- Heavy Spring-Tempered

Key to Starrett Rule Numbering System:

## Prefixes:

C - Satin Chrome Finish
DH - Double Hook
H - Single Hook

## Suffixes:

E - End Graduations
K - With Pocket Clip
N - Narrow-Type Rule
R - Quick-Reading
S - Semi-Flexible
T - Tapered End

## Steel Rules with Inch Graduations

## 1-144"

All rules furnished with Starrett satin chrome finish, except where noted. Additional sizes and variations available on special order.

## Standard Case for 6"/150mm Rules

For added convenience and protection, all 6" and 150 mm rules in $1 / 2^{\prime \prime}$ and $3 / 4^{\prime \prime}$ widths (except hook rules) are furnished at no extra cost in this attractive, protective case with see-through front.

## Case with Clip

A leather-like case with pocket clip for 6" ( 150 mm ) steel rules. Rounded metal-bound edges prevent pockets from becoming worn and torn by rule corners.

## Catalog C636EM-6

NOTE: * Millimeter/Inch scale with emphasis on millimeter. Overall length is $150 \mathrm{~mm}\left(5.905^{\prime \prime}\right)$. Inch graduations stop at $5-3 / 4^{\prime \prime}$ to avoid confusion.

## 31, 34, and 36* Styles are graduated as follows:

- 150 mm end-to-end on mm edges and to $5-3 / 4^{\text {" }}$ with a blank end on the inch edges
- 300 mm end-to-end on mm edges and to $11-3 / 4^{\prime \prime}$ with a blank end on the inch edges
- 500 mm end-to-end on mm edges and to $19-1 / 2^{\prime \prime}$ with a blank end on the inch edges
- 1000 mm end-to-end on mm edges and to $39-1 / 4^{\prime \prime}$ with a blank end on the inch edges

## Catalog C636EM-6 is graduated as follows:

- 6 " end-to-end on the inch edges and to 150 mm with a blank end on the mm edges

## Steel Rules with Millimeter and Inch Graduations

All rules are full millimeter lengths, except where noted. Additional sizes and variations available on special order.

## Steel Rules with Shrink Graduations

12", 24"
These spring-tempered, satin chrome finished shrink rules are for laying out wood and metal patterns and core boxes for casting metals. Graduated to give shrink allowances directly, they come in $12^{\prime \prime}$ and $24^{\prime \prime}$ lengths with shrinks from $1 / 16-3 / 8^{\prime \prime}$ per foot.

The average shrinkage figures are for metals cast with uniform sections under normal conditions (see table). When using, be sure that the size and shape of castings are considered, since thick castings have less shrink and thin castings more shrink than the figures shown. NOTE: Also see 62 Rule Holder. A very useful tool for patternmakers.Average Shrinkage of Castings(Inches per Foot)
Cast Iron ..... 1/8"
Malleable Iron. ..... 1/8"
Steel. ..... 1/4"
Brass ..... 3/16"
Copper ..... 3/16"
Aluminum ..... 3/16"
Lead. ..... 5/16"
Zinc ..... 5/16"
Britannia. ..... 1/32"
Tin Alloys ..... 1/12"

## C622R-6 Steel

## Rule with Decimal

## Equivalents

## $6^{\prime \prime}$

One side of this handy rule has accurate, photo-engraved, distinctive graduations in both Quick-Reading 32nds and 64ths. The reverse side has a legible table of fractions and decimal equivalents. Made of finest spring-tempered steel with no-glare satin chrome finish.

## C623R-6 Steel Rule

## with Letter and

## Number Drill Sizes

6"
This practical shop rule has accurate, photoengraved graduations in 32nds and 64ths with Quick-Reading figures on one side. The reverse side has letter sizes of drills from A to $Z$ with corresponding diameters in thousandths and also number sizes from 1 to 80 with diameters in thousandths. Made of fine spring-tempered steel with no-glare satin chrome finish.

## 471 Steel Folding Rule with Circumference Measurement <br> 24"

Tinsmiths and other mechanics appreciate this rule because it measures diameters up to 24 " as well as the equivalent circumference measurement in direct-reading circumference inches, up to 75". Entirely eliminates the need for circumference calculations. Made of fine, springtempered steel and jointed at the center with two 12" folds. Photo-engraved graduations.

| 6" Steel Rule with Decimal Equivalents |  |  |  |
| :---: | :---: | :---: | :---: |

| 24" Steel Folding-Rule with Circumference Measurement |  |  |  |
| $3 / 4 " \times 1 / 32$ " | 8ths and Circumference 8ths on One Side; 16ths on Reverse Side | 471 | 52483 |

## 414 Series Steel General Utility Rules - English Pattern

12-72"

These tempered steel rules are designed to meet the general-utility measuring needs of schools and shops, wood-workers, tinsmiths, metalworkers, bench-work, etc. Photo-engraved graduations are heavier than conventional machine-divided rules and easy to read. The two edges on both sides are graduated with the upper edges in 8ths and the lower edges in 16ths of an inch. A 1/4" hang-hole is on one end.

| 414 Steel General Utility Rules - English Pattern |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Length | Width x Thickness | Graduation | Catalog No. | EDP |
| 12 " | 1-1/4" $\times 1 / 16^{\prime \prime}$ | 8ths, 16ths of an Inch, Both Sides | 414-1 | 51499 |
| 24 " |  |  | 414-2 | 51500 |

| 48" |  |  | 414-4 | 51502 |
| 72" |  |  | 414-6 | 51503 |

## Key Seat Clamps

These key seat clamps convert steel rules, combination square blades and straight edges into key seat rules for laying out keyways and scribing parallel lines on round work. They can be easily attached or removed. Made of steel, case hardened, and accurately ground, they are $1^{\prime \prime}$ long $\times 7 / 16$ " wide ( $25 \times 11 \mathrm{~mm}$ ) and have a $7 / 64$ " $(2.8 \mathrm{~mm})$ slot width. Available in pairs only.

| Catalog No. | EDP | Description |
| :--- | :--- | :--- |
| 298 | 51327 | Pair of Key Seat Clamps |

## Rule Clamp

This useful tool is for clamping two steel rules together, end to end, making one long rule for measuring longer lengths than a single rule. Since the clamp bolts have independent adjustment, the rule clamp will hold rules of the same or different widths up to 1-1/4" $(32 \mathrm{~mm})$. This clamp is handy for mechanics whose tool chests will not hold rules over 12" ( 300 mm ) long.

| Rule Clamp |  |  |
| :--- | :--- | :--- |
| Catalog No. | EDP | Description |
| 299 | 51328 | Rule Clamp |

## 423 Series Small Steel Rules with Holder

1/4, 3/8, 1/2, 3/4, $1^{1 "}$
This set of five small rules is extremely useful for measurements in confined or hard-toreach locations. They are especially suitable for measuring grooves, short shoulders, recesses, keyways, and in tool and die work.
The 4" long holder is well balanced. The rules are easily inserted in the slotted end of the holder and are rigidly clamped in place by a slight turn of a knurled nut. Two slots are provided, so the rules can be held at $30^{\circ}$ or $45^{\circ}$, either square in a slot or tipped to one side.
Thicknesses up to $1 / 16$ " can be clamped in either slot. Rules are made of thin, springtempered steel, with bright finish and highly accurate, photo-engraved
graduations. Each rule is graduated in 32 nds of an inch on one side and 64ths on the reverse.

## 62 Rule Holder EDP 50304

The Starrett 62 Rule Holder is designed primarily for patternmakers, toolmakers and machinists. It will hold any rule or combination square blade from $3 / 4-1-9 / 16^{\prime \prime}$ (1940 mm ) wide in an upright position for use in transferring measurements with surface gages, etc. It is also handy for use as a depth gage. A large knurled clamp nut securely locks the rule in the holder.
The base is approximately $3-1 / 8^{\prime \prime}$ long and 2 $1 / 2^{\prime \prime}$ wide $(80 \times 60 \mathrm{~mm})$. There is a depression on each side for thumb and fingers for handling convenience.

Holder with 1 " blade attached and $1 / 4,3 / 8,1 / 2,3 / 4$ blades
